Richard hails from Tulsa. He has earned degrees from the University of Oklahoma and Stanford. (Go Sooners and Cardinals!) Before starting Pied Piper, he worked for Hooli as a part time software developer. While his work focuses on applied information theory, mostly optimizing lossless compression schema of both the length-limited and adaptive variants, his non-work interests range widely, everything from quantum computing to chaos theory. He could tell you about it, but THAT would NOT be a “length-limited” conversation!

Experience

Pied Piper

December 2013 - December 2014

CEO/President

<http://piedpiper.com>

Pied Piper is a multi-platform technology based on a proprietary universal compression algorithm that has consistently fielded high Weisman Scores™ that are not merely competitive, but approach the theoretical limit of lossless compression.

- Build an algorithm for artist to detect if their music was violating copy right infringement laws
- Successfully won Techcrunch Disrupt
- Optimized an algorithm that holds the current world record for Weisman Scores

Skills

Web Development

Master

- HTML
- CSS
- Javascript

Compression

Master

- Mpeg
- MP4
- GIF

Volunteer

CoderDojo

2012 - 2013

Teacher

<http://coderdojo.com/>

Global movement of free coding clubs for young people.

- Awarded 'Teacher of the Month'

Education

2011 - 2014

University of Oklahoma

Information Technology

Bachelor

GPA: 4.0

- DB1101 - Basic SQL
- CS2011 - Java Introduction

Awards

Digital Compression Pioneer Award

November 07, 2019

Techcrunch

There is no spoon.

Publications

Video compression for 3d media

Hooli

2014-10-01
